ways to make the most of your day

Open days can be crucial in helping you decide where – and what – you want to study. Here's how to get the most out of it.

1. Plan your time carefully

Use this guide to decide which talks, tours and stands you want to go to. We have two campuses, so include 20 minutes' travel time if you're visiting both.

Some talk locations may have changed since you created your personalised plan on our website – check the schedule on pages 12–19 for the most up-to-date details.

2. Get a feel for the University

Today is your introduction to Sheffield Hallam, so make sure you get all the information you need. Attend a welcome talk to find out more about who we are and the opportunities you will receive if you study here, and visit Hallam Hall or Heart of the Campus to take tours of our campuses and the city.

3. Visit our accommodation

Take the time to look around an example of our accommodation. We have six halls of residence open until 3pm – just pop in whenever's best for you. Take a free shuttle bus, or walk there using the map inserted at the back of this guide.

DID YOU KNOW?

We have free shuttle buses running all day between our two campuses. See the map at the back for details.

4. Ask plenty of questions

This is your opportunity to find out all about life at Sheffield Hallam, so don't be afraid to talk to us. At our course stands you can speak to students and lecturers from the courses you're interested in.

5. Find out why our students love it here

Wherever you go today there'll be students ready to answer your questions about any aspect of university life. No one is better placed to tell you what it's like.

Check out the summer activities outside our campuses to get a taste of life as a student here, and make sure you enter our competition to win an exclusive Sheffield weekend.

6. If you need directions, just ask

As well as the map at the back of this guide and the signs around the University, our team of student ambassadors will be on hand to give you directions. There is also a free shuttle bus to take you between our two campuses and to some of our accommodation.

If you need support for a disability during your visit, please let us know. Representatives from our disabled student support team will be available to answer any questions in the Atrium, level 2 at City Campus and in Heart of the Campus at Collegiate Campus.

Health and safety

A continuous fire alarm is the signal to evacuate the building. Staff and student ambassadors will guide you to your nearest exit and assembly point.

An intermittent fire alarm means there could be a fire in an adjacent building. You will be safe where you are and don't need to evacuate unless the alarm changes to a continuous one.

If you require first aid during your visit, please notify a member of staff or a student ambassador.
