## GREEN ROOFS - BENEFITS AND BEST PRACTICE

Tuesday 12th May 2009

Sheffield Hallam University  
Owen Building, Room 1031

There are only 30 places available on this event

Delegate Fee: £125

*In association with Integrate Yorkshire & Groundwork Sheffield*

SHARPENS YOUR THINKING

Urban and Regional Studies

## Aims of the Event

This workshop is intended to explore the benefits and practical challenges involved in the installation of green roofs in the urban environment. Delegates will hear the latest thinking on green roofs and share the lessons learnt from existing green roof projects.

In the afternoon, delegates will visit three green roofs sites in Sheffield to gain a full understanding of the concept and confidence in their application. The tours will be run in partnership with Groundwork Sheffield and The Green Roof Centre. Delegates will be split into two groups with a tour leader in each group.

As places on this event are limited, these smaller groups will ensure each delegate gains maximum benefit from the tours and has the opportunity to ask detailed questions.

## Target Audience

This event is aimed at developers, consultants and local authority officers involved in the design, planning, implementation and maintenance of green roofs.

## Key Speakers

**Nigel Dunnnett** - Director, The Green Roof Centre. University of Sheffield Reader in Urban Horticulture, Department of landscape.

**Catherine Basilio** - Senior Lecturer at Sheffield Hallam University & Architect at Sheffield City Council.

**Ian Rotherham** - Director, Tourism and Environmental Change Research Unit, Sheffield Hallam University.
