

## **Erratum**

In the July 2006 Report *Identifying Gypsy and Traveller Accommodation Needs in Yorkshire and The Humber*, the following corrections should be made:

### **Section 3, page 33**

There is an omission from *Table 4: LA and RSL provision in Yorkshire and The Humber*. There is one further public site, not included in Table 4, within the local authority district of Hambleton. The site in question is Hillfield Close, Seamer, Stokesley, Middlesbrough. This is a public site owned by North Yorkshire County Council which can accommodate 16 residential pitches. This omission not does not affect required pitch estimates to 2010 as these are derived from current unmet need (i.e. unauthorised encampments) and future need.

### **Section 3, page 36**

In the section on additional planned provision, only the local authority districts of Doncaster and East Riding have identified (or are in the process of identifying) new sites for development.
