Sheffield Hallam University, UK

We are one of the UK's largest universities, with almost 35,500 students and more than 3,200 staff from all over the world. Over 4,200 of our students are from outside the UK, coming from around 120 countries.

Career-enhancing courses

We work closely with regional and national professional bodies to ensure you're gaining the knowledge required by industry. Over 70 professional bodies accredit our courses, meaning they meet industry-recognised quality standards. You may also be able to get exemptions from professional examinations and gain membership of professional bodies.

Several of our courses offer you the opportunity to gain work experience or get involved with consultancy projects.

Dedicated international student support

You benefit from an award-winning support team for international students, free English language support and flexible study methods. Our education guidance service also offers

- advice on academic and related issues
- drop-in study practice, giving one to-one support for issues such as essay writing managing workloads and examination preparation
- online tutorials for key skills including writing, IT and working with numbers
- pre-arrival information packs and an online mentoring scheme
- a meet and greet service from airports
- an international student handbook and orientation programme
- a careers and employment service
- organised social events
- an immigration advisory service
- a multifaith centre
- a counselling service

A student friendly city

With over 50,000 students Sheffield is one of the UK's most popular student destinations.

The city is conveniently located in the middle of the UK with excellent transport links – we are just over two hours away from London by train. It has a fascinating history and heritage, from its roots in steel-making to its reputation as the UK capital for sport. Sheffield is an exciting, safe, cosmopolitan city with beautiful countryside, lively nightlife and extensive leisure facilities. And it has a low cost of living compared to other major UK cities.
