Station House is a community based service providing pre-school, after schools and holiday club childcare services for children, young people and their families. They aim to provide high quality childcare and also to extend support to children, young people and families in the local community through the provision of group work and projects that aim to enhance family life. Children (aged 2-3years) attend playgroup daily for play based learning and follow the Early Years Foundation Stage curriculum.

Students can expect to be involved in setting up, breakfast, play sessions, singing and dancing, outside play, snack time, story time and cleaning up. Children aged 5-11years are collected by staff and students from local schools to attend After Schools Club. Students are expected to walk children down from school, serve tea and wash up and support children with play/crafts/dressing up etc. During both session students are expected to work within established routines but are very welcome to introduce their own ideas, for example, students have led on a variety of project such as introducing a cook and eat session, small gardening projects etc.
