- Lincoln County Hospital
- Pilgrim Hospital, Boston
- Grantham District General Hospital
- *Louth Hospital*
- *Skegness Hospital*
- *Spalding Hospital*

**Private Sector Placements**

- Thornbury Hospital Sheffield.

Whilst most placements offer experience in cardiac angiography, MRI, dental radiography and paediatric radiography referrals tend to be relatively straight forward so students are given the opportunity of spending time in the regional specialist centre.

Allocation to specialist placement will be based on needs which arise from limitations in experience at the base placement. All students attend the Royal

Hallamshire Hospital for neurological imaging experience. These rotations will commence towards the end of year 2.

These special rotations help students in making decisions about their career path, broaden their experiential learning and reinforce theoretical learning. The following departments offer specialist placements;

**Cardiac angiography, Northern General Hospital**  
**Charles Clifford Dental Hospital**  
**Sheffield Children's Hospital**  
**Neurological Imaging, Royal Hallamshire Hospital**
