Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code. The practice assessor has responsibility for assessing Professional Values though the mid-point review can be completed by a practice supervisor in liaison with the practice assessor. Yes = Achieved, No = Not Achieved

Ongoing Achievement Record: If the Student is completing their final hours, the Practice Assessor will need to complete **Part 03, Placement 03, and the End of programme:**
