

Process for managing placements for students whose status has changed, which impacts on a student being able to attend placement

Please note the following conditions which must be applied:

Occupational Health (OH) - All students who have a break in study for health reasons or who have experienced health issues whilst temporarily withdrawn from their course require an OH referral and clearance prior to placement.

Disclosure and Barring Service (DBS) - All students who have a break in study require DBS clearance prior to placement.

Mandatory Training - Students to complete mandatory training if previous mandatory training undertaken more than 1 year before return to programme.

Disability Coordinators consult with Placement Student Experience Manager in relation to students with complex placement requirements before agreement is communicated to student, and in compliance with GDPR.

All placement decisions must be negotiated through the placement team, no agreement/promises regarding where students will be placed to be communicated to students without prior agreement placement team
