

## Covid 19 – Guidance for Students Participating in Simulated Placements and Practical Teaching Sessions

When participating in simulated placements and practical teaching sessions, students **MUST** adhere to the following

- Undertake a lateral flow test and [report the result to the NHS](#) prior to attending the session
- Only attend the session if the result of the lateral flow test is **negative**
- Wear a face-covering **or** PPE as appropriate to the session
- Practice strict and meticulous hand hygiene
- Maintain social distance
- Follow the university's guidance on covid-safety at all times when on campus

Bringing learners together who regularly work in varied healthcare setting across the region could exacerbate the spread of Covid-19 therefore when doing these practical sessions we ask you to support us in keeping the workforce well and Covid-19 out of healthcare settings by adherence in line with the Healthcare setting guidance available at: [COVID-19: infection prevention and control \(IPC\)](#). We hugely value your support on this matter.
