

## Connecting to SHU Wi-Fi (Windows 10)

1

Click the Wi-Fi icon at the bottom right of the screen.

2

Click on **SHU-USS** and then **Connect**.

Sign in with your SHU username and password.

3

When Wi-Fi is connected, the icon will turn white as shown here.

If you have difficulty connecting, or have changed your password, 'forget' the SHU wireless network by following the steps below and then repeat steps 1-3 at the top of this instructions sheet.

1

Click on the Windows button at the bottom left of the screen and then **"Settings"**.

2

Click on **"Network & Internet"** and then **"Wi-Fi"**

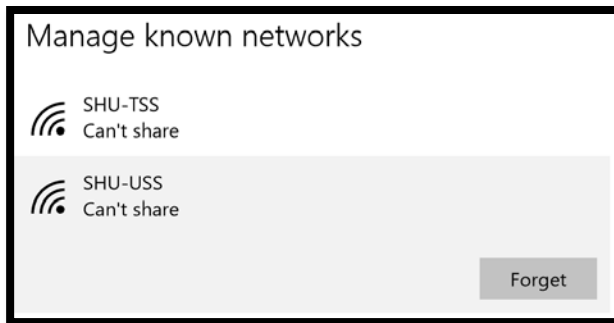

## Connecting to SHU Wi-Fi (Windows 10)

3

Click "**Manage Wi-Fi Settings**".

4

Scroll down to "**Manage known networks**" and click the **Forget** button on the **SHU-USS** network.

You can now follow steps 1-3 at the start of this instruction sheet, to connect to the Wi-Fi.
