

Using a Chromebook on the SHU Wireless Network

Chromebooks are slightly different from other Windows and Apple Mac laptops. Follow the instructions below to connect to the SHU-USS or SHU-USSL wireless network.

If you're working with a Chromebook at home, you'll need to connect to your home Wi-Fi instead.

Click on the WiFi symbol bottom right of the Chromebook and choose either SHU-USS or SHU-USSL

× No network	
SHU-GUEST	
🗢 BTWifi-with-FON	
SHU-TSS	
SHU-USS	
eduroam	

2. On the Join Wi-Fi network screen EAP Method = PEAP

EAP Phase 2 = Automatic

Server CA = Default

Domain = shu.ac.uk

Identity = SHU userid

Password = Normal SHU password

Leave all other fields blank or the default

Select Connect to continue.
