Practice Tool – Instructions and Questions

Please open the Practice Tool on your table and read the instructions.

Consider how it could be used in your work and/or in the following ways:

- Undertaking an assessment/interview
- Doing a care plan or pathway plan
- Making referrals
- Other ways

Please ask any questions you may have about it.

How might using the tool this impact on the type of information you would usually get in relation to:

- Trust and relationship building
- Creating space for voice, for reflection, for choice, for their knowledge and feelings to take centre stage
- Create space for difficult feelings, for disclosures, taking the gaze off the child
- Establishing what is already present and what the gaps are

Try out this Practice Tool with your group using your case study 2:

- Use role play to think how you would use it in practice e.g. formulation of questions
- If working with speakers of other languages, try out using Google Translate over the wooden pieces or with the Translation Sheet (if needed)
