POSTGRADUATE HEALTH & SOCIAL CARE PROSPECTUS 2026/27

ADVANCE YOUR CAREER. SHAPE THE FUTURE OF HEALTH AND CARE

Welcome to the postgraduate Health and Social Care portfolio at Sheffield Hallam University's College of Health, Wellbeing and Life Sciences.

Our courses are designed to help you develop your expertise, progress your career and make a greater impact in practice.

And from 2026/27, many of our programmes now offer enhanced flexibility through personalised pathways and elective module choices, allowing you to tailor your studies to your interests, career ambitions and professional development needs.

SPECIALIST STUDY DRIVEN BY SECTOR PARTNERSHIPS

We develop our courses in partnership with health and social care providers, so you get relevant learning that you can apply directly to contemporary practice. You'll learn from experienced academics, clinicians and practitioners, with teaching informed by current research, professional practice, innovation and workforce priorities.

You can explore a wide range of specialisms, including clinical practice, leadership, education, diagnostic and therapeutic services, community practice, mental health, and advanced and specialist roles.

FLEXIBLE LEARNING DESIGNED AROUND YOU

We understand that postgraduate study needs to fit alongside your professional and personal commitments. That's why we offer flexible study routes and multiple entry points, as well as personalised pathways and elective module choices, enabling you to shape your learning around your individual circumstances.

Depending on the course, qualifications may be available at:

- Postgraduate Certificate (PG Cert)
- Postgraduate Diploma (PG Dip)
- Master of Science (MSc)

Short courses
and modules

Many programmes offer opportunities to build qualifications over time, supporting lifelong learning and helping you to study at a pace that works for both you and your employer.

BESPOKE LEARNING FOR YOUR WORKFORCE

Alongside our established CPD portfolio, we work with health and social care organisations to develop **bespoke learning tailored to specific workforce, service and organisational priorities**.

Our flexible, non-accredited offer can be shaped around the needs of your teams and services, with opportunities to explore **bespoke short courses, masterclasses and other tailored learning**. Working in partnership, we draw on Sheffield Hallam University's academic expertise and links with professional practice to develop relevant, engaging learning that supports workforce development and service improvement.

WHY SHEFFIELD HALLAM

When you study with us, you'll benefit from:

- A well-established reputation for excellence in health and social care education.
- Expert teaching from experienced academics, clinicians and practitioners.
- Courses informed by current practice, research, innovation and workforce priorities.
- Strong partnerships with health and social care providers, employers and professional bodies.
- Opportunities for interprofessional learning alongside professionals from a wide range of disciplines.
- Flexible study routes that support your continuing professional development and career progression.
- Personalised pathways and elective module choices across many programmes.
- Access to a supportive learning community focused on your success.
- Learning that enhances your confidence, capability and impact in practice.

ADVANCED PRACTICE MSK MANAGEMENT

Course Overview

Total: 180–185 Credits	Start: September	Delivery: Blended
Award Options for this course	MSc	

How This Course Works

Select one elective module alongside the mandatory clinical placement in second year to be eligible for *MACP membership and CAP accreditation on the full-time enrolled course *subject to meeting the criteria of these external organisations. Select two electives on a CPD only route for the Standard MSc.

Core Modules (Year 1)

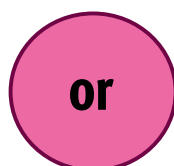

Musculoskeletal Management of the Lower Quadrant - 30 Credits

Musculoskeletal Management of the Upper Quadrant - 30 Credits

Foundations of Advanced Practice - 15 Credits

Standard MSc Route

Choose TWO elective modules

Accreditation Route

Choose ONE elective module and complete a placement in Year 2 or 3

Elective Modules (Year 2)

Elective Modules (Year 2)	Credits
Clinical Applications of Musculoskeletal Radiographic Image Interpretation	15
First Contact Practitioner 2: Primary Care Practice	15
Injection Therapy for Joints and Soft Tissue	15
Therapeutic Management of Musculoskeletal Pain	20

Optional Placement

Optional Placement	Credits
Mentored Clinical placement (Year 2 or 3)	15

Final Compulsory Modules

Final Compulsory Modules	Credit
Research and Innovation in Healthcare Practice (Year 2)	15 credits
Dissertation in Health and Social Care Practice (Year 3)	60 credits

ADVANCED PRACTICE NON-SURGICAL ONCOLOGY

Course Overview		
Total: 180 Credits	Start: September	Delivery: Distance Learning
Award Options for this course	MSc	

How This Course Works

By utilising specialist elective modules alongside core modules, you can create an education and training pathway to support your scope of practice.

Core Modules	Credits	Year
E-portfolio for Non-Surgical Oncology Advanced Practice	30	Year 1-3
Fundamentals of Cancer Management & Care	15	Year 1
Advanced Clinical Reasoning and Evidence-Based Practice in Non-Surgical Oncology	15	Year 1
Research and Innovation in Healthcare Practice	15	Year 2
Dissertation in Health and Social Care Practice	45	Year 3

Example Elective Modules

Choose modules that suit your practice and career goals.

Elective Modules	Credits
Breast Cancer	15
Cancer Prehabilitation and Rehabilitation	30
Complex Symptom Management in Supportive Oncology	15
Gynaecological Cancer	15
Head and Neck Cancer	15
Improving Radiotherapy Outcomes: Technical & Clinical Strategies	30
Learning and Teaching for Practice	15
Leadership in Your Context	15
Palliative and End of Life Care in Oncology	30
Prostate Cancer	15
Supporting Sexual Wellbeing in Cancer Care	15

ADVANCED PRACTICE

Course Overview

Total: 181 Credits	Start: September	Delivery: Blended
Award Options for this course	MSc	

How This Course Works

Select one professional pathway. Each pathway has specific modules, but all lead to the same MSc award.

Module	Credits	Year
Evidencing Advanced Practice	1	Year 1 -3
Advanced Physical Assessment and Consultation Skills	30	1
Choose ONE prescribing module:		
• Non-Medical Prescribing	30	1
• Pharmacist Independent Prescribing		
• Pathophysiology and Pharmacology for Advanced Management		
Contemporary Issues in Advancing Practice	15	2
Research and Innovation in Healthcare Practice	15	2

Choose Your Professional Pathway (Year 2)

Select one of the six professional pathways shown below. Each pathway includes one 30-credit module and one 15-credit module.

Acute Care Pathway	Mental Health Pathway	Frailty Pathway	Primary Care Pathway	Learning Disabilities Pathway	Urgent Treatment Care Pathway
Managing the Acutely Unwell Patient (30)	Advanced Assessment, Formulation and Treatment Planning in Mental Health (30)	Frailty Assessment and Management (30)	Managing Acute Illness in Primary Care (30)	Inclusion and Approaches for People with Learning Disabilities (30)	Minor Injury Management (30)
Chest Radiographic Image Interpretation (15)	Advanced Interventions and Evaluation in Mental Health (15)	Chest Radiographic Image Interpretation (15)	Managing Clinical Complexities in Primary Care (15)	Applied Law and Policy for People with Learning Disabilities (15)	Musculoskeletal Radiographic Image Interpretation (15)

Year 3

Dissertation in Health and Social Care Practice - 45 Credits

SUPPORTIVE ONCOLOGY AND CANCER CARE

PG Cert

MSc

Course Overview

Total: 60–185 Credits	Start: September	Delivery: Distance Learning
Award Options for this course		
Cancer Rehabilitation and Supportive Oncology	PG Cert	
Supportive Oncology and Cancer	MSc	

How This Course Works

Support your professional development and enhance your expertise in supportive oncology and cancer care through a course that offers a flexible approach to study, enabling you to tailor your learning to your area of practice and interests. Endorsed by the UK Association of Supportive Care in Cancer (UKASCC). For those not wishing to undertake a full Master's, a PG Certificate is also available.

Year 1 Postgraduate Certificate (60 Credits)

Mandatory modules:

Fundamentals of Supportive Oncology and Personalised Care	15
Cancer Prehabilitation and Rehabilitation	30
Complex Symptom Management in Supportive Oncology	15

Year 2 (120 Credits)

Palliative and End of Life Care in Oncology	30
Research and Innovation in Healthcare Practice	15
Choose ONE elective	15

Year 3 (180 Credits)

Choose ONE elective	15
Dissertation in Health and Social Care Practice	45

Example Elective Modules

	Credits
Breast Cancer	15
Fundamentals of Cancer Management and Care	15
Gynaecological Cancer	15
Head & Neck Cancer	15
Loss, Grief and Bereavement	15
Prostate Cancer	15
Supporting Sexual Wellbeing in Cancer Care	15

CHILD, YOUNG PEOPLE & FAMILY MENTAL HEALTH

PG Cert

PG Dip

MSc

Course Overview

Total: 60 - 180 credits	Start: September		Delivery: Distance Learning
Award Options for this course	PG Cert	PG Dip	MSc

How This Course Works

Choose from MSc, PG Dip or PG Cert pathways, with the MSc offering either a 45-credit or 60-credit dissertation option.

Core Modules (Year 1)

Early Intervention in Child, Young People and Family Mental Health - 30 credits

Enhancing Practice in Child, Young People and Family Mental Health - 30 credits

Elective Modules (Year 2)

Select a total of 45 or 60 credits depending on the MSc pathway.

	Credits
Autopia: Autism, Environment and Practice	30
Inclusion & Approaches for People with a Learning Disability	30
Innovation & Improvement in Health and Social Care	15
Leadership Starts With Me	15
Learners in Difficulty	15
Loss, Grief and Bereavement	15
Measuring Success	15
Physical Activity for Mental Health and Psychological Wellbeing	15

MSc Final Modules

	Credits
Research and Innovation in Healthcare Practice (Year 2)	15 credits
Dissertation in Health and Social Care Practice (Year 3)	45/60 credits

PROFESSIONAL PRACTICE IN HEALTH AND SOCIAL CARE

Course Overview

Total: 180 Credits	Start: September	Delivery: Distance Learning
Award Options for this course	MSc	

How This Course Works

Choose from a range of elective modules to build a course that supports your practice and career goals.

Elective Modules (Year 1 and 2)	Credits
Advanced Physical Assessment and Consultation Skills	30
Breast Cancer	15
Frailty Assessment and Management	30
Fundamentals Of Cancer Management and Care	15
Fundamentals Of Supportive Oncology and Personalised Care	15
Gynaecological Cancer	15
Head and Neck Cancer	15
Leadership In Your Context	15
Leadership Starts With Me	15
Leading Teams In Turbulent Times	15
Learners In Difficulty	15
Learning and Teaching For Practice	15
Loss, Grief and Bereavement	15
Managing Acute Illness In Primary Care	30
Managing Clinical Complexities In Primary Care	15
Managing Long Term Conditions	30
Minor Injury Management	30
Pathophysiology and Pharmacology For Advanced Management	30
Principles Of Health and Social Care Education	30
Principles Of Simulation and Debrief	15
Prostate Cancer	15

Core Modules	Credit
Research and Innovation in Healthcare Practice (Year 2)	15 credits
Dissertation in Health and Social Care Practice (Year 3)	45/60 credits

HEALTH & SOCIAL CARE LEADERSHIP

PG Cert

PG DIP

MSc

Course Overview

Total: 180 Credits	Start: September/January		Delivery: Distance Learning
Award Options for this course	PG Cert	PG DIP	MSc

How This Course Works

Choose an award pathway and tailor your studies with a range of core and elective modules.

Postgraduate Certificate (60 Credits Year 1)

Core Module

- | | |
|-----------------------------|----|
| • Leadership Starts with Me | 15 |
|-----------------------------|----|

Elective Modules

Credits

Innovation and Improvement in Health and Social Care	15
Leadership in Your Context	15
Leading Teams in Turbulent Times	15
Measuring Success	15

Postgraduate Diploma (120 Credits Year 2)

- | | |
|--------------------------------------|----|
| • Leading Change in a Changing World | 30 |

RADIOTHERAPY & ONCOLOGY

Course Overview

Total: 180 Credits	Start: September / January	Delivery: Distance Learning
Award Options for this course	MSc	

How This Course Works

Complete core modules alongside elective options across three years, with your module choices depending on your intake and area of practice.

Core Modules	Credits	Year
Fundamentals of Cancer Management and Care	15	Year 1
Improving Radiotherapy Outcomes: Technical and Clinical Strategies	30	Year 1
Research and Innovation in Healthcare Practice	15	Year 2
Dissertation in Health and Social Care Practice	45	Year 3

Example Elective Modules

Choose your elective modules to suit your area of practice and career goals. The modules available and when you study them depend on your chosen intake.

September Intake

Module	Credits	Year
1 × elective — e.g. Gynaecological Cancer	15	Year 1
3 × electives — e.g: Head and Neck Cancer Prostate Cancer Learning and Teaching in Practice	45	Year 2
1 × elective — e.g. Breast Cancer	15	Year 3

January Intake

Module	Credits	Year
1 × elective — e.g. Breast Cancer	15	Year 1
3 × electives — e.g: Gynaecological Cancer Prostate Cancer Supporting Sexual Wellbeing in Cancer Care	45	Year 2
1 × elective — e.g. Head and Neck Cancer	15	Year 3

SHORT COURSES AND MODULES

STUDY ONE MODULE OR BUILD A POSTGRADUATE QUALIFICATION

Our modular CPD framework gives you the flexibility to study what matters most to your practice today, while keeping the option to work towards a higher qualification in the future. Most modules carry academic credit that can be accumulated and combined to achieve a Postgraduate Certificate (PGCert), Postgraduate Diploma (PGDip) or Master's degree (MSc), creating a personalised learning pathway that supports both professional development and career progression. With a range of online, blended and face-to-face learning opportunities, studying can be tailored around your professional and personal commitments. Many modules also support current NHSE workforce development priorities and funding opportunities, helping you maximise both professional and organisational benefit. Sheffield Hallam University's CPD portfolio has been developed in partnership with healthcare professionals, educators, commissioners and service providers to support the delivery of high-quality, evidence-informed care across a wide range of health and social care professions.

Below you will find the current portfolio of live CPD modules, presented in both A–Z format and grouped by theme to help you identify programmes relevant to your area of practice, service priorities and career aspirations.

A-Z

A

Abdominal and General Medical Ultrasound Practice
Advanced Assessment, Formulation and Treatment Planning In Mental Health
Advanced Clinical Reasoning and Evidence-Based Practice in Non-Surgical Oncology
Advanced Interventions and Evaluation in Mental Health
Advanced Physical Assessment and Consultation Skills (APACS)
Advanced Physical Assessment and Consultation Skills for Community Nurses
Applied Law and Policy for People with Learning Disabilities, Including People with a Learning Disability who are Autistic
Applied Ultrasound Physics for Safe Practice

B

Breast Cancer

C

Cancer Prehabilitation and Rehabilitation
Clinical Applications of Chest Radiographic Image Interpretation
Community Practitioner Nurse Prescribing (V150)
Complex Symptom Management in Supportive Oncology
Contemporary Issues in Advancing Practice (distance learning)
Core Principles of Paediatrics in Primary Care and the Acute Sector
Curriculum Leadership in Education

D

Development through Assessment and Feedback
Discovering a Nursing Career in General Practice
Discovering a Nursing Career in General Practice (Non-credit bearing)
Dissertation in Health and Social Care Practice (45 Credits)
Dissertation in Health and Social Care Practice (60 Credits)
