POST 16

Masterclasses

Our Art and Design masterclasses are hands on, interactive academic led sessions which introduce students to 2D, 3D and digital techniques used to inform and inspire the creative process. This year we will be working with the theme, sustainability. The visit can also include a guided tour around our outstanding facilities. During June there is a unique opportunity to have guided tour around our Degree show.

School/College Visits (external)

An academic from our department of Art & Design will visit your institute and introduce their course/s. They will talk through specialist projects and share what else you can expect to experience studying at SHU. They will discuss our interview process and what we are looking for in a portfolio.

Portfolio Reviews

Come along and get hints and tips on building a portfolio ready for interview on one of our Art & Design course at Sheffield Hallam University.
