Driving

You will need to park in the visitor car park areas if you are driving to placement. The purple car park is nearest the 'north' radiotherapy department but is quite small. The yellow car park is the biggest and you shouldn't have a problem parking here at any time. It's still fairly close (5 min walk) to both the north and south departments. The link above to the city hospital website also links to a map of the city campus so that you can locate these areas.

You have to pay for parking. Its £5.50 a day usually but if you visit the parking office in the trust headquarters then you can arrange a monthly pass which will be cheaper.
