Sheffield Institute of Arts

Sheffield is home to the UK's largest practicing community of artists and designers outside London, bringing a constant flow of creative energy and activity.

Our institute is an integral part of this vibrant and creative city.

We opened our doors in 1843 to supply creative support to the region's manufacturers, in a bid to stay ahead of the growing global competition. Our links with industry support this - product designers, developers, graphic design, visual communication, filmmakers, fashion designers create in the real world, through internships and placements.

All SIA academic staff are members of the Art & Design Research Center and contribute to the Research Assessment Framework (REF).

Results of the 2014 Research Excellence Framework¹, SIA was ranked second in the UK among modern universities, and in the top ten of all universities: 81% of our work was rated internationally excellent, with 42% described as world-leading.

Our artists, designers and filmmakers pioneer developments in health care, independent film, public artworks, and discourse on fine art practice.
