SHARARA CITY OF CREATIVITY

Did you know that Sheffield is home to the UK's largest practising community of artists and designers outside London?

At the heart of the scene is Sheffield Institute of Arts here at Sheffield Hallam. Since we started out as the Sheffield School of Design in 1843, generations of our students and staff have helped make Sheffield the creative city we love.

Make sure you make time today to visit the new home of Sheffield Institute of Arts in the former Head Post Office. The Grade II listed building has been transformed with studio spaces and workshops equipped with the latest technology, creating the ultimate space for our students to learn, create and collaborate.

Throughout 2016, our students and academic experts are working with local artists, makers and the people of Sheffield on a series of creative projects and oneoff events that stretch right across our streets, markets, creative spaces and communities.
