

## **Disability support**

If you have a disability (this includes sensory and physical disabilities, dyslexia, mental health conditions and medical conditions etc), please get in touch if you feel you require any provisions to undertake the below activities. The selection team will then be able to discuss with you what adjustments you might require to be organised.

Please contact our events team on (0114) 225 5584 or at [recruitmentevents@shu.ac.uk](mailto:recruitmentevents@shu.ac.uk).

### **Overview of possible selection event tasks:**

- **10-20 minute face to face discussion** which will be undertaken with one or two representatives of the profession you are applying for. It will be undertaken in a screened section of a larger room with other applicants also being interviewed at the same time.
- **A 15-minute presentation** by a member of the course team. For some courses a short film may be shown which will then trigger some questions in the face to face discussion.
- **15-45-minute communication and teamwork group exercises** which may include:
  - **A practical group task** - For example this may be a practical task such as building something, making something or designing something.
  - **A group discussion** - which may be initiated by either a short video, a set of photographs or a short written piece to read.

*You will potentially work in small groups of 4-8 applicants in a room with other groups also completing the activity.*

- **20-minute reflective written task**

Please refer to the table below to identify the specific selection event tasks you will undertake for your course.

### Allied Health Courses

<b>Course area UG</b>	<b>10 minutes face to face discussion</b>	<b>20 minute group working task</b>	<b>20 minute group discussion</b>
